

### Easy Start-Sew

When sewing heavy weight materials feed can be improved by pressing the black button and lower the presser foot lever, making it parallel to the throat plate. This makes it easy to start sewing multiple layers of fabric or overlapped materials.

### Drop-In Bobbin

The front drop-in bobbin is easy to view and replace with no separate bobbin case to lose or fuss with. The window in the hook cover allows you to monitor the remaining bobbin thread.

### Needle Stops at its Lowest Position

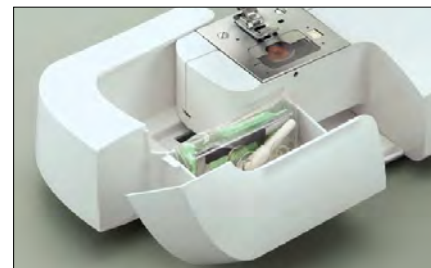

As the needle stops at the lowest position, you can easily turn the material and begin to sew. By pushing the Reverse Stitch Button, the needle will go up and you can remove the material safely and effectively.

### New Feature

### Accessory Storage Box

Accessories such as presser foot or bobbins are easy to store in the auxiliary bed.

Plastic Hard Case

# Simple! Fun! Creative!

Easy Adjustment of Stitch Length and Zigzag Width

Two Automatic Lock Stitch Keys

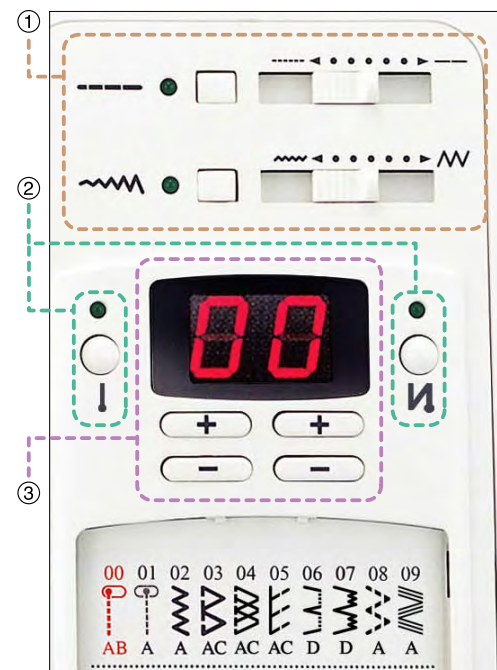

8 Automatic Buttonholings

# 50 Sewing Patterns and Many User Friendly Features

## ① Easy Adjustment of Stitch Length and Zigzag Width

Stitch length and zigzag width can be easily changed to your preferred size by push button and adjustment lever. Your actual settings for stitch length and zigzag width are displayed at the LED indicator. You can return to the standard settings by simply pushing the one touch manual buttons.

### New Feature

## ② Two Automatic Lock Stitch Keys

Push button selection of two different lock stitches to secure your sewing.

### Reinforcement Stitch

The needle enters at the same position both at the beginning and end of sewing creating a reinforcement stitch that prevents stitches from fraying or unraveling.

### Reverse Stitch

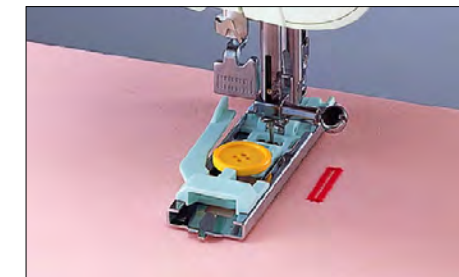

The machine automatically performs reverse stitching at the beginning and end of sewing.

## ③ Quad-Mode LED Indicator

Select your desired sewing pattern by entering the pattern number at the push button control panel. Each sewing pattern is clearly identified with large digits at the LED indicator. It will also display the operational status of the bobbin thread winder when the winding shaft is in the working position.

## AUTO 8 Automatic Buttonholings

With 8 buttonhole patterns to choose from, the machine conveniently sews buttonholes automatically according to the size of the button. At the end of sewing, the unit automatically stops after bar tacking. According to your project, you can sew thin to thick buttonholes with ease on any type of fabric.

## AUTO Automatic Needle Threader

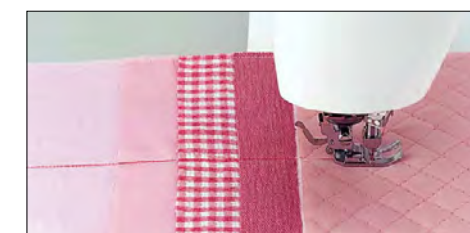

The automatic needle threader easily threads the needle without eyestrain and allows you to start sewing quickly.

# HZL-E71

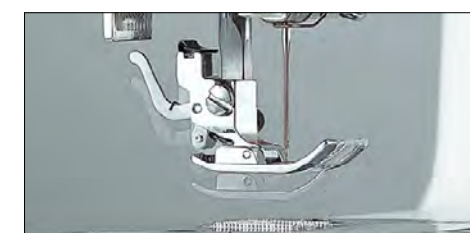

## Easy Thread Tension Control

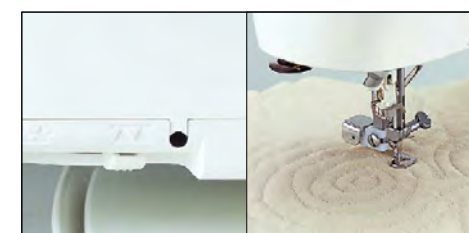

Determining the correct thread tension for the material you are sewing is easy with the conveniently located thread tension dial.

## Lift of the Presser Foot

The presser foot lift raises in 2 steps with a maximum lift range of 12mm. Even heavy weight materials are easily handled in and out of the sewing area.

## Drop Feed

You can lower the feed dog for free-motion quilting or raise it for normal sewing by simply moving the lever to the right or left.

## 5 Extra Feed Dog

Located in front of the needle entry hole, it enables you to start sewing smoothly and effortlessly.
